Congratulations!

Your application for the GDC AI Workforce Program has been successfully received.

Next Steps:

Onboarding: You will receive an email with instructions to access the courses and program guidelines. Please check your inbox and follow the steps to begin your learning journey.

Learning Phase (14 weeks): Once onboarded, you will have access to our LMS. Complete the self-paced courses (WD 101, WD 201, WD 301) and develop the web development skills that will prepare you for the internship.

Assessment: After completing the courses, you will undergo an assessment. Success in this assessment opens the door to a 6-month remote internship(may or may not be paid).

Internship Opportunity: Qualifying students will work on AI-powered projects. The sooner you finish the courses, the faster you can secure your internship.

Regularly checking your inbox will ensure you don't miss any crucial communications from us.

If you have any questions or need assistance in the meantime, feel free to reach out to us at support@pupilfirst.org.

Best of luck!
